Foundations of Red Hat
Cloud-native Development

Managing Cloud-native
Applications with
Kubernetes

Advanced Application
Management with Red Hat
OpenShift

Nov 25, 2025

Jill Ravalya

has successfully completed the online, non-credit Specialization

Cloud-Native Development with OpenShift and Kubernetes

In this specialization, learners developed their foundational knowledge of containerized workloads to explore Kubernetes and the Red Hat OpenShift Container Platform (RHOC) as containerized orchestration platforms. This specialization focused on skills needed to deploy, configure, scale and troubleshoot container applications.

Two handwritten signatures in black ink, one above the other, appearing to be "Marek Cznerek" and "George".

Marek Cznerek
Senior Curriculum
Developer
Red Hat

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
